DAMI-ISH

MEMORANDUM FOR LTG C. C. PIXLEY, THE SURGEON GENERAL

SUBJECT: Assignment of Behavioral Scientist as Consultant for Project GRILL FLAME

1. On the advice of COL Edward L. Buescher, Chairman, Human Subjects Research Review Board, request you designate COL Harry C. Holloway, Professor and Chairman, Department of Psychiatry, Uniform Services University of Health Sciences, as a consultant to Project GRILL FLAME. COL Holloway's services would be required for approximately eight months.
2. COL Holloway provides some expertise that heretofore has been lacking in GRILL FLAME. He would primarily engage in assisting various DA organizations and contractors during critical development of GRILL FLAME protocols. Additionally, he would monitor the whole project from the perspective of a behavioral scientist.
3. We are entering the next phase of GRILL FLAME, in which a different "activity" is to be explored for its military potential. On 3 April the Under Secretary of the Army was briefed by project officers from Redstone Arsenal. His comments at the conclusion were to the effect that no time should be wasted in getting this part of GRILL FLAME moving. This means that the services of your GRILL FLAME Human Use Review Panel would once again be required, possibly within the next six to eight weeks. Your assistance and attention in this matter are greatly appreciated.

Signed E. R. Thompson
